UCAPAN TERIMA KASIH

Jajaran Dewan Redaksi ASPIRATOR – Jurnal Penelitian Penyakit Tular Vektor mengucapkan terima kasih yang sebesar-besarnya kepada segenap Mitra Bestari yang terlibat dalam proses penelaahan:

Mitra Bebestari

Prof. (Riset) dr. Emiliana Tjitra, M.Sc, PhD (Badan Litbang Kesehatan)

Prof (Riset) Dr. Agus Kardian, M.Sc (Balai Penelitian Tanaman Obat dan Rempah)

Prof. (Riset) Dr. M. Soedomo (World Health Organization)

Prof (Riset) Dr. Amrul Munif, M.Si (Badan Litbang Kesehatan)

Prof. Dr. drh. Upik Kesumawati Hadi, MS (Institut Pertanian Bogor)

Prof. Dra. Endang Srimurni Kusmintarsih, SU, Ph.D (Universitas Jendral Soedirman)

Dr. Amirullah Baharuddin, M.Si (Universitas Halu Oleo, Kendari)

Dr. Dra. Dewi Susanna, M.Sc (Universitas Indonesia)

Dr. drh. Susi Soviana, M.Si (Institut Pertanian Bogor)

Dr. Ir. Insawasri, M.Kes (Badan Litbang Kesehatan)

Dr. Nastiti Wijayanti, S.Si, M.Si (Universitas Gadjah Mada, Yogyakarta)

Drs. Kasnodihardjo (Badan Litbang Kesehatan)

International Committee of Medical Journal Editors (ICMJE) Uniform Requirements for Manuscripts Submitted to Biomedical Journals

1. Standard journal article
List the first six authors followed by et al. (Note: NLM now lists all authors.)
As an option, if a journal carries continuous pagination throughout a volume (as many medical journals do) the month and issue number may be omitted.
More than six authors:
Optional addition of a database's unique identifier for the citation: [Edited 12 May 2009]
Optional addition of a clinical trial registration number: [Added 12 May 2009]

2. Organization as author

3. Both personal authors and organization as author (List all as they appear in the byline.) [Edited 12 May 2009]

4. No author given
21st century heart solution may have a sting in the tail. BMJ. 2002;325(7357):184.

5. Article not in English [Edited 12 May 2009]
Optional translation of article title (MEDLINE/PubMed practice):

6. Volume with supplement

7. Issue with supplement

8. Volume with part
9. Issue with part

10. Issue with no volume

11. No volume or issue

12. Pagination in roman numerals

13. Type of article indicated as needed

14. Article containing retraction

Article containing a partial retraction: [Added 12 May 2009]

15. Article retracted

Article partially retracted: [Added 12 May 2009]

16. Article republished with corrections

17. Article with published erratum

18. Article published electronically ahead of the print version

Books and Other Monographs
19. Personal author(s)

20. Editor(s), compiler(s) as author
21. Author(s) and editor(s)

22. Organization(s) as author [Edited 12 May 2009]

23. Chapter in a book

24. Conference proceedings

25. Conference paper

26. Scientific or technical report
Issued by funding/sponsoring agency:
Issued by performing agency:

27. Dissertation

28. Patent

Other Published Material
29. Newspaper article

30. Audiovisual material

31. Legal Material
Public law:
Unenacted bill:
Code of Federal Regulations:

Hearing:

32. **Map**

33. **Dictionary and similar references**

Unpublished Material

34. **In press or Forthcoming [Edited 12 May 2009]**
(Note: NLM prefers "Forthcoming" rather than "In press" because not all items will be printed.)

Electronic Material

35. **CD-ROM**

36. **Journal article on the Internet [Edited 12 May 2009]**

Optional presentation (omits bracketed phrase that qualifies the journal title abbreviation):

Article published on the Internet ahead of the print version:
See # 18.

Optional formats used by NLM in MEDLINE/PubMed:
Article with document number in place of traditional pagination:

Article with a Digital Object Identifier (DOI):

Article with unique publisher item identifier (pii) in place of traditional pagination or DOI:

37. **Monograph on the Internet [Edited 12 May 2009]**

38. **Homepage/Web site [Edited 12 May 2009]**

39. **Part of a homepage/Web site [Edited 12 May 2009]**
40. Database on the Internet [Edited 12 May 2009]

Open database:

Closed database:

41. Part of a database on the Internet [Edited 12 May 2009]

42. Blogs [Added 12 May 2009]

Contribution to a blog:

More detailed information on how to cite references can be found in Citing Medicine. Note Appendix F which covers how citations in MEDLINE/PubMed differ from the advice in Citing Medicine.

Judul Artikel : ..............................................................................................................................

Artikel Title : ..............................................................................................................................

Nama Seluruh Penulis : ...............................................................................................................

Names of All Authors : ...............................................................................................................

Dengan ini kami menyatakan bahwa:

We hereby confirm that:

1. Artikel yang kami kirimkan adalah asli yang ditulis oleh nama-nama penulis yang tercantum di atas dan belum pernah dipublikasi pada media manapun;
   The article we have submitted to the journal for review is original, has been written by the stated authors and has not been published elsewhere;

2. Artikel tidak sedang dalam proses atau pertimbangan publikasi oleh jurnal lain dan tidak akan dikirimkan ke jurnal lain selama proses penelaahan oleh jurnal ini berlangsung;
   The article is not currently being considered for publication by any other journal and will not be submitted for such review while under review by this journal;

3. Artikel tidak mengandung pernyataan-pernyataan yang berbahaya, menentang hukum, dan mengancam individu atau hak-hak individu dan kelompok lain;
   The article contains no libellous or other unlawful statements and does not contain any materials that violate any personal or proprietary rights of any other person or entity;

4. Kami telah memperolah izin tertulis dari pemilik hak cipta setiap pernyataan atau dokumen yang diperoleh dari produk ber-hak cipta, serta telah menyebutkan sumber referensi yang digunakan dalam artikel ini.
   We have obtained written permission from copyright owners for any excerpts from copyrighted works that are included and have credited the sources in my article.

COPYRIGHT TRANSFER FORM

Instructions
Please print your name, sign, and place date on the line provided
Please fax a paper version to (0265) 639375
Please send email version as an attachment to aspirator@litbang.depkes.go.id

Under the terms of Indonesian Government Copyright Law, ASPIRATOR - Journal of Vector-borne Diseases Studies must formally obtain transfer of copyright before an article can be published.

Journal of Vector-borne Diseases Studies grants to the author (and to all co-authors) the right to present orally in any forum all or part of the work. It is also stipulated that all graphics including figures, tables, and charts may be republished with permission from ASPIRATOR - Journal of Vector-borne Diseases Studies.

In consideration of the fact that ASPIRATOR - Journal of Vector-borne Diseases Studies undertakes to publish my article:

1. I affirm that the material has not been previously published and that I (and my co-authors) own and have not transferred elsewhere any rights to the article.
2. I affirm that I (and my co-authors) have obtained written permission to use any previously copyrighted material included in the article and that such documentation will be forwarded to ASPIRATOR - Journal of Vector-borne Diseases Studies simultaneously with the article. I further affirm that I (my co-authors) have stated any possible conflicts of interest within the article.
3. I (and my co-authors) hereby assign and transfer to ASPIRATOR - Journal of Vector-borne Diseases Studies all rights of copyright ownership and permission to the article, including without limitation or restriction, all rights of reproduction, derivation, distribution, sale, reuse, and display of the work, in whole or in part, including recompilation and stand-alone publication, in any and all forms of media now or hereafter known, including all electronic and digital media, as protected by the laws of Republic of Indonesia and foreign countries and to authorize others to make such uses of the work. These rights will become the property of ASPIRATOR - Journal of Vector-borne Diseases Studies from the date of acceptance of the article for publication and extend for the life of copyright. I understand that ASPIRATOR - Journal of Vector-borne Diseases Studies, as a copyright owner, has authority to grant permission to reproduce the article.

Article title:

I sign for and accept responsibility for transferring copyright of this article to Journal of Vector-borne Diseases Studies

ASPIRATOR (disebut juga sebagai pooter) adalah alat yang digunakan untuk mengoleksi serangga, krustasea atau organisme kecil rapuh lainnya. Alat ini memungkinkan pengguna untuk mengisap dan menangkap spesimen tanpa menelannya. Perangkat tersebut paling sering digunakan oleh ahli entomologi di lapangan dan laboratorium. Dalam hal penelitian penyakit tular vektor, alat ini penting untuk mengoleksi dan mengidentifikasi vektor penyakit, terutama nyamuk.
